The terminal types to which the offer applies are: Countertop, Mobile, Portable Wi-Fi, Portable Bluetooth. The waiver of the 'minimum monthly service charge' (MMSC) refers to the monthly service charge that is usually applied if the acquiring charges for your card transactions in a given month do not meet the minimum threshold for your account. During the 6 month waiver period you will still pay for the transactions you take and all other charges will apply as usual. The 6 months' free online gateway or terminal hire offer applies to either online gateway or terminal hire and the two offers cannot be combined. The offers cannot be used with any other promotional offer. If you choose to sign up for our online gateway services and also a terminal, then the 6 month free offer will automatically be applied to the online gateway fees. The waiver of the monthly online gateway fee or terminal hire fees and the minimum monthly service charge only applies for 6 months from the date you are accepted as a Worldpay customer. After that Worldpay's standard pricing will resume for each. The monthly terminal hire fee will vary depending on the type of terminal taken. All other charges apart from those included in the 6 month promotional offer will apply as usual to Worldpay's services, including (without limitation) the pay per transaction charges for the applicable monthly online gateway plan and the standard Custom Price plan acquiring fees for both terminal and online gateway transactions. Worldpay may withdraw, suspend or amend this offer without liability for any reason at any time without notice.
